Scheme

At Busselton Vet Hospital we are passionate about pets and keeping them healthy and happy for you to enjoy for as many years as possible.

Rather than waiting around until something goes wrong we would like to partner with you in our Healthy Pets 4 Life care plans. Just like with people, regular check-ups and tests will help our pets stay fully tuned up for life. And with the new easy monthly payments not only do they get the best of care, but this care is more affordable than ever.

Take the worry out of your life and that of your pooch and enjoy the simplicity of Healthy Pets 4 Life.

Healthy Pets 4 Life care plans are designed for dogs of all ages with a level of cover to suit every dog's needs. The **Essential** plan is ideal for easy care dogs, while the **Complete** plan provides more cover with extra peace of mind for those little terrors who cause us some worry! The **Ultimate** plan is for those dogs who deserve that extra love and attention. This plan is also perfect for our older furry friends who will have more needs as they mature.

You will love the harmony, and peace of mind that Healthy Pets 4 Life care plans bring to the lives of you and your beloved pet.

These plans have been designed to help you keep your pet healthy for longer. They also simplify your budgeting with monthly payments combined with a range of services at significant discounts.

This is a yearly contract. If you wish to withdraw from the care plan within 12 months of joining, then the services you have used will be calculated and you will be responsible for any shortfall between the remaining payments or the full retail value of the services used, less payments already made (whichever is less). All benefits will expire after 12 months in any event.

Not to be used in conjunction with any other offer or promotion. Conditions and benefits may change without notice.

There is a waiting period for some benefits on the monthly payment plans - ask staff for details.

\* Re-examination consultations are charged on follow up visits.
